A+ Hardware & Software Systems

Install and configure DOS and Windows. Understand CPU's, memory, storage media, modems, NIC and peripherals

Network+

Install and configure network client software. Understanding of main types of network technologies, protocols and components. Ability to configure TCP/IP protocol and troubleshoot network connectivity.

SERVICE PLANS

If your network fails will your company be able to continue working efficiently? How much down time can your business afford? These are questions you need to be asking yourself. Your network is one of your company's most valuable assets so why not start treating it that way?

With various levels of experience on staff, Axiom offers a wide variety of cost effective, flexible plans and contracts to meet the needs of your organization.

- Full-time on-site
- Part-time on-site
- Time and materials (T&M)
- Weekly & monthly maintenance contract

We at Axiom understand that your network is more than just a 9-5 job. That is why we offer on-call support to all of our customers.

WHY CHOOSE AXIOM?

A full-time IT staff can be a tremendous overhead for a company. With Axiom you can have IT experts only when needed saving your company valuable dollars. Let Axiom's professionals work for you!
